ABOUT ME

I have decided upon a career path that is linked to Artificial Intelligence, where I will be able to leverage my skills by working on diverse AI modules. I am pursuing BE/BTech and believe that by continuous learning and working on significant projects, I will be able to enhance my skills as a Python programmer, which remains at the core of my skills.

EDUCATION

2024

C. U. Shah Govt. Polytechnic, Surendranagar

Diploma in Computer Engineering

Actively participating in learning about concepts of Artificial Intelligence and Python development. Always endeavoring to work on next-level project ideas. Looking out for new technologies to enhance skills.

2021

M.N.J. patel , Surat

Secondary School (Class X)

Built a strong foundation in core academic subjects while developing discipline, consistency, and interest in learning, which supported further studies in engineering.

EXPERIENCE

2023 - July

Perfetto Solutions

Web Developer Intern

Involved in the front-end area of work, developing in React.js to design responsive and user-friendly web pages. Acquired practical experience in the use of HTML, CSS, Java Script, and component-based development in real projects for various clients.

SKILLS

Programming Languages

- Python

AI & Data Analysis

- Artificial Intelligence
- Data Analysis

Tools & Platforms

- Git
- GitHub
- Microsoft Office
- Bootstrap
- AI tools

Web Development

- Web Development

PROJECTS

- Smart Attendance System (Face Recognition)
- Emotion Detection from Text
- Spam Email Detection
- AI Chatbot
- Movie Recommendation System
- Flipcart-clone-website

EXTRA / CERTIFICATIONS

- Participated in SSIP Hackathon and other technical hackathons.
- Completed online courses in Python, AI, and Web Development from Google, Microsoft, and IBM.
- Gained teamwork and leadership through college activities.
- Practicing projects to improve AI and Python skills.
